| 学生に対するメッセージ Message to the student学生に対するメッセージ Message to the student   |
| Presentation is fine. You can speak a bit slower.<br>Initially your talk was too fast.   |
| You may need to compare your proposed method not only with your baselines but with other methods.  |
| "Next study" sounds interesting. There should be compl   |
| of key segment selection papers with TRECVED MED.  |
| Thorough survey and comparison with them would be  |
| needed.  |

| 学生に対するメッセージ Message to the student   |
| Advices or comments about the contents, the direction of research, progress of research and the way to do the presentation   |
|  |
| 1. In the 2nd presengentation, it is expected to have more   |
| 1. In the 2 <sup>nd</sup> presensentation, it is expected to have more comprehensive studies on your PhP topic. But current  |
| progress is not good.  |
| 2. Altereliterature reviews are needed for example, is the   |
| segment-based approach totally new? If not, what are   |
| existing approaches and their prosand cons?  |
| 3. Current experiments are still with MED'10 dataset with 3 events.  |
| Meanwhile larger datasets are used in MED task. Tou should   |
| extend your nort for these datasets and make companisons   |
| ruth So A  |
| 4. The improvement of SBD based sequentation over uniform sampting   |
| nth 50% overlapping is minor while more cost is needed (35.00%) 35.5 and Hisvery forgile. [ 裏面もご記入下さい! ] Please fill in the back too.  |

#### -----------------主たる指導の教員に対するメッセージ(学生に非公開)------Messages to the <del>Advisor(not disclosed to the student</del>)

Furthermon, looky at perf of each event, 'u likes random, i.e not consistent improvement.

- 5. Only showing perf of using SBD is not enough. You should discuss on joins and cons of your SBD. (yourset yourse presentation is only show the good case of SBD),
- \$. The velationshy, of SBP (detected shot) and related sequentlies sequent containing cues for finding the farget event)
